The story of **Rembrandt**

Rembrandt van Rijn was buried in the iconic Westerkerk, as were several other famous Dutch artists. Anne Frank was soothed by the chimes of the church's clock tower while in hiding and mentioned it several times in her famous diary. The massive organ shutters of the Duyschot organ were painted by Gerard de Lairese who was an acquaintance of Rembrandt van Rijn. Rembrandt even painted a portrait of Gerard de Lairese.

The great organists of our time use Rembrandt as an inspiration for their colorful programs at the monumental Duyschot organ (1686). Visit his memorial stone and hear the organists painting with sound!

Famous Dutch painter Rembrandt van Rijn was buried at Westerkerk in 1669.
